Washington, D. C. 20005

Dear Mr. Newman:

Dr. Wheelon, the Agency Deputy Director for Science and Technology, whom you recently met in the company of Admiral Raborn, has asked that I communicate with you and follow through on certain matters discussed during the recent meeting.

We would be most pleased if you would suggest the names of one or two gentlemen who have membership on the NSIA Research and Development Panel who might meet with Dr. Wheelon for a substantive discussion of the nature of the work of that Panel. I suggest we might handle this matter by telephone and would further suggest you contact a [redacted] on [redacted] concerning the names of the people involved. At that time you and [redacted] can arrange a mutually satisfactory date for the meeting.

[redacted] whom you also met during your recent visit, will be establishing contact with Dr. William Harris on certain matters concerning anti-submarine warfare. I am forwarding a copy of this letter to Dr. Harris telling him [redacted] will shortly be in contact with him.

The Director and Dr. Wheelon both have expressed gratitude and pleasure as a result of your recent visitation and we look forward to a more detailed conversation on matters of mutual interest.

Sincerely yours,

Signed: John F. Blake
